WHO

Asperger Works, Inc., a 501(c)(3) non-profit charitable organization, was founded in 2012 for one purpose only: to put autism to work for adults with Asperger's Syndrome (AS) by developing programs that help a very underserved, talented population within the autistic community find fulfilling work, stay employed, and advance in their careers.

WHAT

In 2019, we honored Attorney Shain Neumier, a disability rights advocate and activist; Tom "Woody" Wood a former AWorks Board member and disability rights activist; and The ARC of Greater Haverhill and Newburyport for the work they have done for the disability community and/or Asperger Works.

Help us celebrate our ninth year as a certified not-for-profit organization. And help us raise money to continue providing employment services for adults with Asperger's Syndrome as well as education to employers regarding the value our clients bring to their businesses.
